World Radiology and Medical Imaging Conference 2025

Date and Time: Saturday, March 8 9:00 am - 6:00 pm

Address: SWISSOTEL BANGKOK RATCHADA Address: 204 Ratchadaphisek Rd, Huai Khwang, Khet Huai Khwang, Bangkok 10320, Thailand

Episirus Scientifica regards each one of the individuals to go to the [World Radiology and Medical Imaging Conference 2025](#) accredited with CPD credits during March 08-09, 2025 in Bangkok, Thailand in which melds brief keynote presentations, speaker talks, Exhibition, Symposia, Workshops. Meet Global Pediatricians from Asia-pacific, Middle East, India, Europe, USA

World Radiology and Medical Imaging Conference 2025 (WRMI25) is the educational event which is designed to advance knowledge and expertise in Radiology and Medical Imaging that rotate between continents and are organized in collaboration with national and international Radiology and Medical Imaging societies and associations. This International Congress WRMI25 is going to be held in Bangkok, Thailand during March 08-09, 2024. The conference is targeted to the international Radiology and Medical Imaging community as well as other healthcare professionals involved in multidisciplinary Radiology challenges; For every community, there continues to be a need for Radiology and Medical Imaging teams to evaluate and treat the severely chronic patients. It is appropriate that this Radiology Conference take the action of leading a continuing education venue for the complex operative and Radiology challenges and become the epitome of such series.

The World Radiology and Medical Imaging Conference 2025 (WRMI25) will be organized around the theme ‘Radiology and Medical Imaging : Challenges and Opportunities in the 21st Century’.

Few Topics which will be covered:

Advanced Imaging Techniques, Artificial Intelligence and Machine Learning in Radiology, Interventional Radiology, Clinical Radiology, Hybrid Imaging, Nuclear Medicine, Pediatric Imaging, Oncologic Imaging, Cardiovascular Imaging, Neuroradiology, Musculoskeletal Imaging, Radiology in Emergency Medicine, Radiology Education and Training, Future Trends and Innovations in Radiology, Advanced technology and Instrumentation, Medical X-ray, Ultrasound Imaging, CT Imaging, Magnetic Resonance Imaging, Nuclear Medicine imaging, Radiation Oncology, Multi-Model Imaging, Forensic radiology, Pediatric Radiology, Positron Emission Tomography, Chest Radiology, Advances in Breast Imaging, Neuroradiology, Genitourinary Radiology, Radiotherapy, Imaging Techniques in Ophthalmology, Gastrointestinal Radiology, Radiology Informatics, Diagnostic Medical Physics, Vascular and Interventional Radiology, Thoracic Radiology, Patient safety and Practice Management, Radiology and Diagnostic Imaging

Target Audience:

- Radiologist
- Imaging Technologist

- Diagnostic Radiologists
- Interventional Radiologists
- Pediatric Radiologists
- Neuroradiologists
- Radiology Scientist
- Medical Physicists
- Medical Imaging Technologists
- Radiotherapists
- Radiology Nurse
- Radiology Director or Administrator
- Biomedical Engineers
- Radiology Residents and Fellows
- Healthcare Associations and Radiology Societies
- Radiology Informatics Specialist
- Healthcare Technology Entrepreneur
- Physicians and Surgeons
- Researchers and Academics
- Industry Professionals
- Students
- Young Research Scientists
- Business Delegates
- Medical Students
- Device Manufacturing Companies
- Associations and Societies
